

General Information					
Course Title:	Principles of Biostatistics	Course Designation: PHS 520			Credits: 3
Semester:	Fall	Year:	2008		
Department:	Public Health Sciences				
Director:	David Mauger, PhD	Phone #	7178	Email: dmauger@psu.edu	Office Rm # ASB 2200
Time :	6:00 - 8:30 PM	Days:	THURSDAY (8/28/08 - 12/18/08)		Location: ASB 1101

Course Information

Description and/or Overview:

Introduction to the application of techniques and interpretation of results that are commonly used to plan, analyze, and report clinical and health services research.

Goals and/or Objectives:

By the end of the course, students will be able to recognize the purposes and appropriate applications of basic statistical tests for various types of studies, know assumptions underlying these tests, use statistical software to perform such tests, and interpret test results.

Pre-requisites:

None

Requirements; course-specific policies and expectations:

Student must have access to a computer and software to complete basis statistical analyses and prepare written reports. They should have access to the Web for data sets and reports. SAS Enterprise Guide, version 4.1 is strongly recommended.

Required Texts and Resources:

Required: *Statistics Using SAS Enterprise Guide* James B. Davis, Publisher: SAS Institute Inc., Cary, NC, 2007
ISBN: 978-1-59047-566-9

Some students have found useful: *The Cartoon Guide to Statistics*
by Larry Gonick & Woolcott Smith, New York: Harper Collins
ISBN: 0-06-273102-5

Electronic Links:

We will use the ANGEL course management system (<https://cms.psu.edu>).
Lecture notes, homework assignments, and lab handouts will be posted.

Attendance Policy:

Students who miss more than 2 of the 15 lectures without cause will receive a failing grade for the course.

Examination Policy:

There will be two one-week take-home exams, one at mid-term and a final.

Grading Criteria:

Final course grades will be determined by a midterm (35%), a final (35%), homework (30%, 5% for each of 6 assignments). Homework should be done independently but discussion with classmates is allowed.

Homework Due Dates:

- 1 – 9/11
- 2 – 9/25
- 3 – 10/9
- 4 – 11/06
- 5 – 11/20
- 6 – 12/11

Academic Integrity

Academic Integrity at Penn State is defined by Faculty Senate Policy 49-20 as “the pursuit of scholarly activity in an open, honest and responsible manner”. The University's Code of Conduct states that “all students should act with personal integrity, respect other students' dignity, rights and property, and help create and maintain an environment in which all can succeed through the fruits of their efforts.

Academic integrity includes a commitment not to engage in or tolerate acts of falsification, misrepresentation or deception. Such acts of dishonesty violate the fundamental ethical principles of the University community and compromise the worth of work completed by others”. Academic dishonesty (including, but not limited to cheating, plagiarism, or falsification of information) will not be tolerated and can result in academic or disciplinary sanctions such as a failing (F) grade in the course.

Plagiarism

Read the [OWL Avoiding Plagiarism](#) Web site for a good discussion on the boundary between using other people's research and plagiarism.

For more information, see: <http://tlt.its.psu.edu/suggestions/cyberplag/cyberplagstudent.html>

Statement on Remediation

The basis for grades, as stated in [Senate Policy 47-20](#), is "...the instructor's judgment of the student's scholastic achievement..." Occasionally, a disagreement arises in the assignment of a grade. A student who wishes to question or challenge the grade assigned in a course must first discuss grading practices and assignments with the instructor. It is expected that the student and instructor will try to eliminate any misunderstandings and will attempt to work out any disagreements over grades.

On the rare occasion that a student and instructor fail to resolve the grade dispute through informal means, the student may request that the head of the academic program offering the course act as a mediator. If this mediation does not resolve the dispute, the student who is a graduate student may request further mediation from the associate dean for graduate studies.

Educator's Code of Conduct

The Penn State Milton S. Hershey Medical Center and Penn State College of Medicine are dedicated to developing and maintaining a strong commitment to ethical teaching practices at all levels of the education process.

The foundation for this Educator's Code of Conduct is provided by the Penn State University Graduate School Statement on Teaching Ethics (1). The development of this Graduate School statement was based on a special issue of the journal, *New Directions for Teaching and Learning*. In this special issue, entitled *Ethical Dimensions of College and University Teaching: Understanding and Honoring the Special Relationship between Teachers and Students* (2), several authors provided theoretical and practical guidelines for honing ethical college teaching skills. Some of the authors' recommendations have been used to formulate the Educator's Code of Conduct provided herein. Some of these recommendations were modified to specifically fit the needs of both educators and students at the Hershey Medical Center and the Penn State College of Medicine. Both the Unified Campus Commitment to Excellence of the Hershey Medical Center and Penn State College of Medicine (3) and the Code of Ethical Behavior of the Hershey Medical Center, Policy A-20 HAM (4) were also consulted in preparing this Educator's Code of Conduct.

Four Norms to Govern Teaching

Honesty

Honesty and integrity must be practiced during all aspects of the education process.

Promise-Keeping

Promise keeping requires the educator to fulfill the "promises" made at the beginning of the semester or any other learning activity. Syllabi, assignments, grading principles, and class and office hour schedules each involve promises that are made to students and that must be adhered to under normal circumstances.

Respect for Persons

The educator must approach the learner with personal respect. In addition, the educator ought to encourage mutual respect among students. In particular, respect for race, religion, sexual orientation, disability gender, age, marital status, cultural differences, and political conviction should be supported and encouraged in all aspects of the educational process. Additionally, educators ought to show respect and common courtesy for students both during interpersonal interactions and in responding promptly to students' need for guidance and feedback. An environment free from harassment and discrimination, verbal abuse, physical violence, and intimidation in any form must also be provided for all learning activities.

Fairness

Recognizing the inherent subjectivity involved in grading, an educator ought to ensure that their grading practices are as objective as possible by creating and adhering to unambiguous criteria.

Principles of Ethical College and University Teaching

Content Competence

An educator maintains a high level of subject matter knowledge and ensures that the content of the educational experience is current, accurate, representative, and appropriate to the position of the learning experience within the students' program of study. The educator must be capable of approaching each learner with a commitment to meeting his or her educational needs.

Pedagogical Competence

A pedagogically competent educator communicates the objectives of the educational experience to students, is aware of alternative instructional methods or strategies, and selects methods of instruction that are effective in helping students to achieve the course objectives.

Dealing with Sensitive Topics

Topics that students are likely to find sensitive or discomfiting are dealt with in an open, honest, and positive way.

Student Development

The overriding responsibility of the educator is to contribute to the intellectual development of the student, at least in the context of the educator's own area of expertise, and to avoid actions such as exploitation and discrimination that detract from student development.

Dual Relationship with Students

To avoid conflict of interest, an educator does not enter into dual-role relationships with students that are likely to detract from student development or lead to actual or perceived favoritism on the part of the educator. The establishment of a romantic/sexual relationship between an educator and a student should be reported to the immediate supervisor of the educator. Such relationships should be dealt with consistent with Penn State Administrative Policy AD41 — Sexual Harassment (5).

Student Confidentiality

Student grades, letters of evaluation, attendance records, and private communications are treated as confidential materials and are released only with student consent, for legitimate academic purposes, or if there are reasonable grounds for believing that releasing such information will be beneficial to the student or will prevent harm to the student or to others.

Patient Privacy and Confidentiality

Educators who utilize patient information as part of any educational experience must follow patient privacy and confidentiality guidelines as outlined by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Respect for Colleagues

An educator respects the dignity of his or her colleagues and works cooperatively with colleagues in the interest of fostering student development.

Valid Assessment of Students

An educator is responsible for taking adequate steps to ensure that the assessment of a student's performance is valid, open, fair, and congruent with the course/educational experience objectives. An educator must be aware that such assessments are important in students' lives and in the development of their careers.

Respect for Institution and Profession

In the interest of student development, an educator is aware of and respects the educational goals, policies, and standards of the institution in which he or she teaches and the profession which he or she represents.

Citing Sources of Educational Material

An educator acknowledges and documents, as appropriate, the sources of information and other materials used for teaching.

Violations of the Educator's Code of Conduct

Should a learner experience conduct that is inconsistent with the Educator's Code of Conduct, he/she is encouraged to first address the issue with either the educator responsible for the inconsistency or the director of the course in which the educator teaches. Should this attempt to resolve the problem fail, or if the nature of the inconsistency is such that the learner does not feel comfortable addressing the issue with either the educator or the course director, the student may consult other individuals. These individuals may include but are not limited to: faculty advisor, student ombudsman, departmental chair, the Vice Dean for Educational Affairs, and the Vice Dean for Faculty and Administrative Affairs. The decision of who to contact may be dependent on the educational program of the learner and/or type of violation that was encountered.

Course Schedule

Course Title:		Principles of Biostatistics	Course Designation:	PHS 520	
Course Director:		Dave Mauger, Ph.D.			
Time :	6:00 - 8:30 PM	Days:	Thursday	Location:	ASB 1101
Date	Lecture #	Instruction Type	Instructor	Projected Lecture Topic - This list is an approximate guide to lecture topics. Titles and content are subject to change	
8/28/08	1	Lecture	D. Mauger	Describing Data	
9/04/08	2	Lecture	D. Mauger	Sampling Distributions and Confidence Intervals	
9/11/08	3	Lecture	D. Mauger	Hypothesis Testing: One Sample	
9/18/08	4	Lecture	D. Mauger	Hypothesis Testing: Independent Samples I	
9/25/08	5	Lecture	D. Mauger	Hypothesis Testing: Independent Samples II	
10/02/08	6	Lecture	D. Mauger	Hypothesis Testing: Paired Designs	
10/09/08	7	Lecture & take-home mid-term	D. Mauger	Review	
10/16/08	8	Lecture	D. Mauger	ANOVA I	
10/23/08	9	Lecture	D. Mauger	ANOVA II	
10/30/08	10	Lecture	D. Mauger	ANOVA III	
11/06/08	11	Lecture	D. Mauger	Correlation	
11/13/08	12	Lecture	D. Mauger	Linear Regression	
11/20/08	13	Lecture	D. Mauger	Contingency Tables I	
11/27/08	THANKSGIVING BREAK - NO CLASS				
12/04/08	14	Lecture	D. Mauger	Contingency Tables II	
12/11/08	15	Lecture & take-home final	D. Mauger	Review	
12/18/08	FINALS WEEK – NO CLASS
